

1. About Northwind Robotics

Northwind Robotics was founded in 2014 in Pittsburgh, Pennsylvania, by Dr. Elena Vasquez and Marcus Obi. The company designs autonomous mobile robots for warehouses and distribution centers. Its flagship product is the Atlas-7 picking robot, which is deployed at more than 60 customer sites.

Today Northwind employs about 420 people across three offices: Pittsburgh (headquarters), Austin, and Rotterdam. Our mission is to take the heavy lifting out of logistics so that people can focus on skilled work.

Our core values are Safety First, Build With Care, Own the Outcome, and Learn in Public. Every new hire completes a two-week onboarding program that includes a full day of robot safety training on the warehouse floor.

2. Working Hours and Remote Work

Northwind uses flexible working hours. Every employee is expected to be available during core hours, from 10:00 to 15:00 in their local time zone. Outside core hours, you may arrange your schedule with your team.

We follow a hybrid model. Hybrid employees work from the office at least two days per week, and Tuesday and Thursday are the company-wide anchor days when teams meet in person. Fully remote arrangements require written approval from a Vice President.

To set up a home office, each employee receives a one-time equipment stipend of 600 US dollars, plus a monthly internet allowance of 40 US dollars, paid through payroll.

3. Time Off and Leave

Full-time employees receive 25 days of paid time off (PTO) per calendar year. PTO accrues monthly, starting from your first day of employment. Up to 5 unused PTO days can be carried over into the next year; carried-over days expire on March 31.

In addition to PTO, employees receive 10 paid sick days per year. Sick days do not carry over and are not paid out when you leave the company.

Northwind offers 16 weeks of fully paid parental leave to all parents, including adoptive and foster parents. Bereavement leave of up to 5 paid days is available after the death of a family member.

4. Expenses and Business Travel

Business expenses must be submitted in the Ledgerly expense tool within 30 days of the purchase, together with an itemized receipt. Any single purchase above 500 US dollars needs approval from your manager before it is made.

Meal expenses during business travel are capped at 75 US dollars per day for domestic trips and 100 US dollars per day for international trips. Alcohol is not reimbursed.

Book economy class for flights shorter than six hours. For flights of six hours or more, employees may book premium economy. Business class is never reimbursed. Hotels should be booked through the company travel portal.

5. Security and Conduct

Wear your access badge visibly at all times in Northwind offices and customer sites. Company laptops use full-disk encryption, and multi-factor authentication is required for every company account. Store all passwords in the Keyvault password manager.

If you suspect a security incident, such as a lost laptop or a phishing email you clicked, report it to the security team at security@northwind.example within one hour. Reporting quickly is always the right call, and no one is punished for a good-faith report.

All employees complete phishing-awareness training every quarter.
